

# What's In Extras

2012/05/10

## 1 The Extras Folder

The Extras folder<sup>1</sup> contains several sub-folders with:

- duplicates of several GUI programs installed by the MacTeX installer for those who already have a TeX distribution;
- alternates to the GUI applications installed by the MacTeX installer; and
- additional software that a TeXer might find useful.

The following sub-sections describe the software contained within them. Table (1), on the next page, contains a complete list of the enclosed software, versions, OS versions, licenses and URLs. Note: Panther and Tiger Only versions of applications are no longer supplied in the Extras folder. They are still listed in Table (1) with a 'P†' and/or 'T†' in the OS column so that the user has a link to be able to obtain that version of the software if available.

### 1.1 Bibliography

Bibliography programs for building and maintaining BibTeX databases.

### 1.2 Browsers

A program to browse symbols used with LaTeX.

### 1.3 Editors & Front Ends

Alternative Editors, Typesetters and Previewers for TeX. These range from “WYSIWYM (What You See Is What You Mean)” to a Programmer’s Editor with strong LaTeX support.

### 1.4 Equation Editors

These allow the user to create beautiful equations, etc., that may be exported for use in other applications; e.g., editors, illustration and presentation software.

#### 1.4.1 Previewers

Separate DVI and PDF previewers for use as external viewers with other editors.

### 1.5 Scripts

Files to integrate some external programmer’s editors with the TeX system.

### 1.6 Spell Checkers

Alternate TeX, LaTeX and ConTeXt aware spell checkers.

### 1.7 Utilities

Utilities for managing your MacTeX-2010 distribution.

## 2 In Closing

If you find the distribution useful, please consider joining TUG, <<http://tug.org/join.html>>, or the TeX User Group best for you, <<http://tug.org/usergroups.html>>. If you want to report bugs or have a problem with the MacTeX distribution please contact <<http://www.tug.org/mactex/support/>> or e-mail directly to <[mactex-support@tug.org](mailto:mactex-support@tug.org)>. If you have TeX problems, please join the TeX on Mac OS X mailing list, <[http://mactex-wiki.tug.org/wiki/index.php?title=TeX\\_on\\_Mac\\_OS\\_X\\_mailing\\_list](http://mactex-wiki.tug.org/wiki/index.php?title=TeX_on_Mac_OS_X_mailing_list)>. For more information on TeX on the Mac see the MacTeX-wiki, <<http://mactex-wiki.tug.org/wiki/>>.

---

<sup>1</sup>Note: most applications found in Tiger folders work directly with Leopard. See Table (1) for more information.
